

## HERITAGE RESOURCES of NORTH SAANICH

- **We need your help to identify the places and objects from our past that we, as a community, have inherited, value and want to keep for the future.**
- **A heritage resource might be a structure, a building or group of buildings, a district, a landscape, an archaeological site, a photograph or map, or even a family diary.**
- **If you know of a heritage place or object that might have historical, aesthetic, scientific, social, cultural or spiritual value for our community, the Heritage Advisory Commission would like to hear about it.**
